

# Improve Efficiency, Control and Flexibility through Virtualisation

## Virtualisation Advisory Services

### Overview

Amor Group provides a range of virtualisation services and solutions that help organisations reduce operational costs and better leverage existing IT investments. Furthermore, they help reduce carbon footprint and centralise IT management and control, reduce management and operational overheads and improve resiliency and availability of critical services.

Working with its customers, Amor Group creates robust virtualisation strategies for servers and desktops that also incorporate a simplified efficient disaster recovery and continuity of business process.

### VMware

VMware is the global leader in virtualisation and cloud infrastructure offering the most trusted and reliable platform for server and desktop virtualisation. It is a robust, reliable foundation which delivers a complete virtualisation platform. VMware provides the most comprehensive virtualisation and cloud management which integrates with customers overall IT infrastructure.

Amor Group are a solution partner, providing innovative solutions tailored to meet customer specific requirements.

- Virtualisation Assessments
- Procurement
- Tailored managed services
- Hosting
- IT Helpdesk

### Customers

- Lincolnshire Police Constabulary
- Scottish Funding Council
- Welsh Ambulance Service Trust
- East Renfrewshire Council

## *Quality Assurance*

In today's climate many organisations are reducing personnel which can have an adverse effect on the operation and performance of IT systems. In order to minimise this Amor Group's experts conduct quality assurance on existing VMware environments and perform virtualisation assessments to identify opportunities for virtualisation and the improvements that can be achieved.

Amor Group reviews systems and discusses the known problems with IT personnel to gain an informed understanding of its operation. The results from the assessment enable accurate project and ROI costs to be identified.

## *Procurement*

Amor Group's consultants can assist organisations to manage the procurement process for virtualisation products to achieve the best outcome.

Amor Group ensure that customers do not overspend by aligning true operational requirements with the most appropriate software version and maintenance models available.

## *Managed Services*

Amor Group has attained an enviable reputation for the range of managed services that it provides through Amor Assist, its ITIL aligned support desk.

Amor Assist consists of a central team with dedicated staff responsible for dealing with a variety of service events.

To support VMware environments Amor Group provides tailored managed services from Amor Assist to meet customer specific needs.

## *Track Record*

Amor Group has provided a range of virtualisation advisory services and solutions for public sector organisations including Lincolnshire Police Constabulary (server consolidation strategy), Scottish Funding Council (server consolidation disaster recovery), Welsh Ambulance Service Trust (quality assurance audits) and East Renfrewshire Council (desktop virtualisation strategy).
